

# Autumn visit to Norwich

Saturday 29 September 2018

**St Albans**  
CIVIC SOCIETY

**Norwich** is a thriving fusion of historic and modern, in fact the most complete medieval city in the UK with its splendidly spired and cloistered Romanesque cathedral, and imposing castle (12C) now a fine museum. The cathedral quarter houses an impressive collection of small shops, restaurants and galleries. Around it is the lively city with market and many interesting 19th and 20th century buildings. A fascinating visit in prospect.
